WHAT IF A SINGLE WARFIGHTER SHARED THE KNOWLEDGE OF MILLIONS?

The U.S. military and Boeing Integrated Defense Systems are making this happen. Creating a global integrated battlespace network to give U.S. forces and allies the right information at the right time, so they can act before the enemy can think. From world-class fighters, airlifters, tankers and intelligence systems to next-generation communication satellites and unmanned combat aerial vehicles, Boeing brings the best of industry, people and technology to the task. So no warfighter is ever alone.

*Boeing's Integrated Defense Systems business unit is currently running an advertising campaign that reinforces IDS' leadership position in the development of integrated battlespace solutions, a key IDS growth area. This ad, the latest in the series, focuses on the solutions that IDS provides the Air Force customer. All of the ads feature images of military personnel from each branch of the armed services. IDS provides integrated systems solutions for global military, government and commercial customers.*
