The 7E7 advertising campaign made its debut recently in multiple languages in key customer markets around the world. Showcased above are samples in English, Italian, Japanese and German. All ads are designed to condition the market to the many benefits of the 7E7 and build excitement for how it will change the business model for airlines and the travel experience for passengers. Additionally, each ad directs readers to the 7E7 Experience Zone, a dedicated 7E7 Web site at www.newairplane.com.
