

All those in favor of in-flight  
Internet service, raise your hands.

Connexion by Boeing. The world's first in-flight, real-time, high-speed Internet service is available on select flights now. Access it from any seat on the plane. Then use it to exchange e-mails. Manage your workload. Or just surf the net. Sign up now at <http://travel.web.boeing.com/library/connexion/instructions.aspx>
